Dear Sir/Madam:

This letter was written in response to your recent request to certify that all cosmetic raw materials supplied by Calumet Penreco are free from the allergens listed in the 7th Amendment, European Cosmetic Directive, Annex III. Products used as cosmetic raw materials are manufactured at Calumet Penreco facilities or at a contract manufacturing facility. Calumet Penreco operations at Karns City, Pennsylvania and at Dickinson, Texas do not use any of the allergens listed and therefore are certified to fully comply with 7th Amendment of the Cosmetic Directive.

### **Calumet Penreco Contract Facilities**

The following Versagel<sup>®</sup> products are manufactured at a contract manufacturing plant. This contract manufacturing plant also produces fragrance-containing materials. Some of the allergens listed in the EU Directive could be in the fragrance components of those materials. However, this plant follows a very stringent cleaning policy to prevent any possible cross contamination. After cleaning, these vessels are inspected and must be odor free prior to making a Versagel<sup>®</sup> product.
