## ABOUT CALUMET

Calumet Specialty Products Partners, L.P. (NASDAQ: CLMT) manufactures, formulates, and markets a diversified slate of specialty branded products to customers in various consumer-facing and industrial markets. Calumet produces nearly 3,400 unique specialty products used in the development of the world's most trusted brands and products. Calumet is vertically integrated and holds a comprehensive portfolio of branded products for use in commercial, industrial, and consumer applications. Headquartered in Indianapolis, Indiana, the company employs approximately 1,400 people and operates 12 facilities across North America, including 10 specialty product manufacturing and production facilities. Calumet products and services are available in more than 90 countries across the world; serving over 2,700 customers globally.

## BRANDS

**Penreco®** is a leading brand of high quality USP white mineral oils, solvents, USP petrolatums, gelled hydrocarbons, and natural petroleum sulfonates used in various pharmaceuticals, personal care products, and consumer goods. Penreco facilities are Orthodox Union Certified Kosher, certified to ISO 9001:2015 Standards by Lloyd's Register Quality Assurance and certified by the U.S. Food and Drug Administration as a bulk pharmaceuticals manufacturer.

**ORCHEX®** Agricultural Spray Oils serve as a proven and safe solution in combating a broad range of insects, diseases, and weeds that impact agricultural and crop production. The ORCHEX Advantage is a set of key benefits that provide optimally balanced pesticidal strength with extremely low phytotoxicity – meaning you get the protection without harming the environment or your bottom line.

The **TitanWax™** product line includes paraffin-natural wax candle blend formulations, fully-refined paraffin, slack/soft and microcrystalline waxes. TitanWax provides precise blending and packaging for unique applications including: candles, adhesives, coatings, rubbers, plastics, board sizing, paper & packaging, cosmetics, personal care, and pharmaceuticals.

**Bel-Ray®** is a leading developer, manufacturer, and distributor of high performance lubricants and greases used in a comprehensive range of aerospace, food, industrial, marine, military, mining, powersports, and automotive applications.

**Royal Purple®** develops and manufactures a wide variety of outperforming premium synthetic lubricants for most industrial, automotive, commercial, and racing applications. The high quality products produced by Royal Purple are formulated using proprietary SYNERLEC® additive technology and designed to deliver the highest levels of protection and performance.

**TruFuel®** is a high performance, ethanol-free engineered fuel that is precisely mixed using the most advanced synthetic lubricant and performance enhancing additives available. Unlike pump gas that can break down after just 30 days, TruFuel remains fresh for years. TruFuel is convenience, protection, and performance for small engines.
