25 August 2020

To Calumet's Valued Wax Customers:

This letter is in response to your request to confirm Calumet's corporate attention to soy wax sustainability measures, and its status as it relates to your own sustainability efforts.

Calumet's soy wax vendors confirm through their respective registration with the U.S. Soybean Export Council (USSEC), posting their sustainability positions on their external websites, or via direct communications with Calumet, that their products are sustainably-produced and maintain transparency of all land use, human rights, fair trade, and environmental efforts, as discussed in the United States Soybean Sustainability Assurance Protocol (SSAP), as issued by the USSEC.

Calumet's soy wax sourcing aligns with its recent EcoVadis platform participation, with specific importance to its Environment and Sustainable Procurement themes within the EcoVadis scoring. The inclusion of our overall soy wax sustainability will reflect in our next renewal period, which will take place in May 2021.

Please do not hesitate to contact me if I may be of any additional assistance.

Sincerely,

Christopher L. Miano, MS, ASQ CMQ/OE
