14 July 2021

To Calumet's Valued Wax Customers:

This letter is in response to your request to confirm Calumet's corporate attention to soy wax and coconut wax sustainability measures, and its status as it relates to your own sustainability efforts.

Calumet's soy wax vendors confirm through their participation in the United States Soybean Export Council (USSEC) and adherence to the US Soybean Sustainability Assurance Protocol (SSAP), sustainability positions posted on their external websites or through direct communications with Calumet that their products are sustainably-produced, maintaining transparency of all land use, human rights, fair trade, and environmental efforts, as discussed in the SSAP. Participation in the USSEC includes third-party farm audits by the United States Department of Agriculture.

Calumet's coconut wax vendors are listed among the founding membership and current participants in The Sustainable Certified Coconut Oil (SCNO) Project, a public-private-partnership initiative which aims at increasing the quantity of sustainably produced and certified coconut oil and at increasing smallholder coconut farmers' incomes in the Philippines and in Indonesia.

Calumet's soy wax and coconut wax sourcing aligns with its recent EcoVadis platform participation, with specific importance to its Environment and Sustainable Procurement themes within the EcoVadis scoring.

Please do not hesitate to contact me if I may be of any additional assistance.

Sincerely,

A handwritten signature in black ink that reads "Christopher L. Miano". The signature is written in a cursive, flowing style.
